## OBJECTIUS

---

Les sortides professionals que té el curs són:

- Positions at Spanish, European and International civil service, NGOs, and international organizations.
- Positions at Law firms.
- Legal departments of public and private companies.
- Legal and economic translation.
- Legal research.
- English for Specific Purposes (ESP) teacher training.

-Provide learners (intermediate to advanced students, CEFR B1-C2) with advanced training on how to use English in a public or private law environment and prepare students, linguists, translators and lawyers who work or intend to work in the international legal community. ILED also helps prepare for two distinct exams: the international certification TOLES (Test of Legal English Skills, Global English-International Division of the Law Society of England and Wales), a test recognized as proof of legal English skills by major law firms, corporations, and international organizations; and the civil service exam for lawyer-linguists of the European Union. It also helps prepare the English language test for many civil service examinations.

-Master all four basic skills (reading comprehension, writing, listening comprehension, and speaking) through a selection of legal topics.

-Provide highly specialized training in legal English, both from a public and private law perspective, with special emphasis on the language of commercial law: company law, contract law, intellectual property law, real property law, employment law and sale of goods. In the context of private law, important areas such as negotiable instruments, secured transactions, debtor-creditor, competition law and transnational law are also discussed in detail. In the context of public law, there is a special emphasis on the language of human rights law, criminal law, procedural law, etc.

## **METODOLOGÍA**

Classes are taught in English and the modality is online asynchronous. After a presentation of the basic contents of each unit (in the form of videos, voiceover .ppt presentations and/or notes and outlines), students will practice the four basic skills by completing quizzes, tasks, and exercises in the virtual classroom. Zoom videoconferences will be used for tutorials and oral presentations. Theory, vocabulary and collocations practice, listening comprehension, and reading comprehension will be taught and assessed via Moodle utilities in our virtual classroom. Students will deliver brief oral presentations and will submit written assignments. Content is available online for students to access when it best suits their schedules; assignments are completed to deadlines, and a discussion forum will facilitate student engagement
